

UV-Monitor PRO3
for UV-Diode sensors
with relay contacts and status indication by LED page no. 73

UV-Monitor PRO5
for UV-Diode sensors
with relay contacts and status indication by LED page no. 74

UV-Monitor PRO8
for UV-Diode sensors
with relay contacts and status indication by LED page no. 75

UV-Monitor PRO11DPI-I
for UV-Diode sensors, current sensors and digital sensors
with relay contacts, status indication by LCD
and integrated hour counter
simultaneous report of UV-value and operating hours
LCD with green, yellow and red back lighting for status indication page no. 76

UV-Monitor PRO16DPI-I
for UV-Diode sensors, current sensors and digital sensors
with relay contacts, status indication by LCD
and integrated hour counter
simultaneous report of UV-value and operating hours
LCD with green, yellow and red back lighting for status indication page no. 77

UV-Monitor PRO30
for digital sensors
with relay contacts, status indication by LCD
and integrated hour counter
simultaneous report of UV-value and operating hours
LCD with green, yellow and red back lighting for status indication page no. 78

UV-Radiation meter UVM-CP
for measurement of radiation intensity
available for UV-C, UV-B, UV-A and UV/vis page no. 79

Referenceradiometer RRM
for checking and recalibrating unit sensors according DVGW and ÖNORM
at $\lambda=254\text{nm}$ page no. 80

VUV-Meter ZED 185 / VUV-Meter ZED 185 REL
for measuring and monitoring VUV radiation sources at $\lambda=185\text{nm}$ page no. 81
